

EQACC SOLAR

100-foot Smart Photovoltaic Energy Storage Container

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

100-foot Smart Photovoltaic Energy Storage Container

Distributed Energy and Energy Procurement

FEMP continues to support agencies with identifying and implementing distributed energy projects, including on-site energy, ...

USDA Agricultural Research Services, Davis, California
USDA Agricultural Research Services, Fort Collins, Colorado
LBNL assisted the USDA ARS in awarding a contract to install a 36-kilowatt, roof-mounted PV system at the agency's research farm on the outskirts of Fort Collins. This installation, slated for March 2021, eventually will include a battery energy storage system (BESS) to reduce demand charges and provide resiliency benefits. See more on so.lbl.gov
