

EQACC SOLAR

100-foot solar-powered container for mining

Overview

What is solar power for mining?

Solar power for mining gives mining operations with large energy loads the opportunity to power projects with off grid solar solutions using the Osprey PowerPlatform. This solar ground mount solution is a hybrid solar system that provides your operation with a powerful portable lift and shift solar technology.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.
