1000 wh power station factory in Poland

Overview

Are power plants a foundation of the Polish energy sector?

Power plants and combined heat and power plants burning fossil fuels are a foundation of the Polish energy sector. A new version of our open database on these facilities, the starting point of all energy transition analyses, is now available at energy.instrat.pl.

Does Westinghouse have a nuclear power plant in Poland?

Westinghouse received support from Polskie Elektrownie Jądrowe (PEJ), the state-owned company responsible for nuclear power plant construction in Poland, during the supplier selection process.

Will Poland's first nuclear power plant be awarded to local companies?

The Polish government expects a significant share of work on the country's first nuclear power plant to be awarded to local companies, but there are steps needing to be taken by the Polish supply chain, the World Nuclear Supply Chain conference in Warsaw heard.

What is the new database on power plants in Poland?

As of today, the database on power plants in Poland includes, among other things: The new version of the database introduces a more detailed level of data aggregation. It now offers a division into power plants and blocks, significantly enhancing the presentation of additional information.
