100kWh Solar Containerized Container in East Africa

Overview

Are our energy solutions made in Africa for Africa?

We pride ourselves that our energy solutions are made in Africa for Africa.” Pre-installed 20ft solar container with all equipment for 33kWp of PV and up to 96kWh battery storage. Innovation in containerised electrification.

What makes our containerised solar power generation units special?

“What makes our containerised solar power generation units special,” says Tobias, “is our use of international lquality engineering and components, while still producing local content that allows us to offer a price advantage and local support. We pride ourselves that our energy solutions are made in Africa for Africa.”.

What is sustainsolar – a containerised solar power solution?

Sustainable Power Generation (Pty) Ltd recently introduced its new containerised solar power solution – SustainSolar – for the African market. The South African-based clean Developing economies face numerous challenges regarding reliable electricity supply, especially in rural areas, which require unique, inventive responses.

How many people are without electricity in Africa?

Tobias Hobbach, managing director of Sustainable Power Generation, explains: “Over 600 million people on the African continent are without electricity. For underdeveloped, rural areas our Rapid Deployment solar power solution comes in easy-to-move standard shipping containers, completely pre-installed and ready to use.
