

EQACC SOLAR

120-foot Solar Container Product Warranty

Overview

What warranties does a solar system have?

Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1. Product warranties A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries.

Are solar panels covered by a warranty?

A solar panel warranty doesn't cover the performance of your other system components like your inverter, mounting materials, or battery. These products are covered by their own separate warranties and are also vital for your system's long-term value and performance. What's the power warranty on solar panels?

.

What is a solar warranty & how does it work?

When you install solar, your warranty won't take the form of a single policy, but rather several different coverages offered by your installer and the manufacturers of your solar equipment. Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1.

How long does a solar installation warranty last?

Workmanship warranties can differ widely between solar companies, with coverage typically lasting anywhere between 1 to 10 years, depending on your installer. While inclusions vary between providers, most workmanship warranties will cover installation-related issues such as wiring, roof penetrations, and improperly installed components.
