

**EQACC SOLAR**

# **120-foot photovoltaic energy storage container for campsites in Mozambique**

## Overview

---

Why is Mozambique acquiring 25-30 MW of solar PV?

The procurement of 25-30 MW of solar PV is the first stage of implementation of the program which will contribute to the diversification of Mozambique's power mix and improve power supply quality, whilst ensuring low-cost energy for Mozambican end users.

What is get fit Mozambique?

GET FiT Mozambique aims to facilitate investments in relatively small-scale (4-15 MW), grid connected renewable energy Independent Power Producer (IPP) Projects, with EDM as the key off-taker and counterpart of the Power Purchase Agreements (PPA).

Which local communities will be affected by solar PV projects with storage facilities?

In April and May 2025, the Programme Implementation Consultant (Multiconsult Norge AS) together with EDM held consultations in the five local communities that will be affected by the implementation of Solar PV projects with storage facilities (Mecubiri, Meconta, Caia, Limpompo and Guija).

Who owns land in Mozambique?

According to the Constitution of the Republic of Mozambique and as reflected in the Land Law (Law no. 19/97 of 1 October), land is owned by the State, but the rights to use and occupy land can be granted to users in form of a DUAT.

## 120-foot photovoltaic energy storage container for campsites in Mozambique

### Battery storage container in mozambique

As the photovoltaic (PV) industry continues to evolve, advancements in Battery storage container in mozambique have become critical to optimizing the utilization of renewable energy sources.
