

**EQACC SOLAR**

# **12v 100A 3000W inverter**

## Overview

---

What is a 3000W / 100A inverter charger?

The BIC123100 features a 3000 Watt Inverter and a 100 Amp AC charger. This unit was developed from the ground up to combine the charging hardware and the inverting hardware onto one PCB (mother board) inside the unit.

What is a 3000 watt pure sine inverter?

The Kisae 3000 Watt Pure Sine Inverter with 100A Charger power gap is bridged with these premium performances, high frequency, bi-directional inverter-chargers. Combines a 3000W DC-AC inverter with a 80A multi-stage charger plus transfer switch. True sinewave output identical to or better than power provided by the local power grid.

How does a 3000W DC-AC inverter work?

Combines a 3000W DC-AC inverter with a 80A multi-stage charger plus transfer switch. True sinewave output identical to or better than power provided by the local power grid. Multi-stage charging ensures batteries are charged to their maker's recommendations. Variable settings offered for Gel, Flooded, AGM, and Lithium battery compatibility.

What is the power gap of the Kisae 3000 watt pure sine inverter?

Flexibility is key with input voltage versions available in either 12 volt DC for 12V batteries or 24 volt DC for 24V batteries; and output versions of either 120 volt AC or 230 volt AC. The Kisae 3000 Watt Pure Sine Inverter with 100A Charger power gap is bridged with these premium performances, high frequency, bi-directional inverter-chargers.
