

EQACC SOLAR

15MWh Off-Grid Solar Container in Port of Spain

LFP 12V 100Ah

Overview

Where is Ocean Sun launching a 270 kW solar system?

Norwegian floating solar specialist Ocean Sun has deployed a 270 kW system based on its novel membrane technology at the saltwater port of Tazacorte on La Palma, one of Spain's Canary Islands.

What is the new solar installation in Valencia & Gandia?

This new installation is in addition to the start-up in January of two other solar plants in the ports of Valencia and Gandia'. The Port Authority of Valencia (PAV) has a 20 kV Medium Voltage network, which distributes electrical energy inside the Port of Valencia for its concessionaires, as well as for the APV's own needs.

What is Ocean Sun's 270 kW floating solar PV project?

Ocean Sun, a Norway-based floating PV technology developer, has completed a 270 kW floating solar PV project that measures 50 m in diameter off the coast of La Palma island, in Spain's Canary Islands.

How much energy does the port of València use?

The sum of the energy obtained between the two solar parks represents 18% of the total electricity consumed by the Port of València in its daily operations. With a useful surface area of 35,000m², the plant consists of 10,530 photovoltaic modules with an installed power of 5,738.85 kWp and a production capacity of 8,380.00 MWh/year.

15MWh Off-Grid Solar Container in Port of Spain

Mobile Solar Power Containers: Off-Grid Energy Anywhere

Mobile solar containers enable total off-grid operation, providing power in locations with no utility grid or where grid access is unreliable. This is essential for rural development ...
