

**EQACC SOLAR**

# **1MW Energy Storage Container for Chilean Research Station**

## Overview

---

What is a 1 MWh energy storage system?

1 MWh and construction scale of 1 MW/1 MWh. It includes a 1.04 MWh lithium iron phosphate battery pack carried by a 20-foot prefabricated container with dimensions of 6058 mm x 2438 mm x 2896 mm. Each energy storage unit has a capacity of 1044.48 kWh, and the actual capacity configuration of the system is 1000 kW/1044.48 kWh.

What is a containerised energy storage system (BESS)?

They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes.

Why should you choose Sunway ESS battery energy storage system?

5□High degree of standardization, integration, rapid deployment, short construction and commissioning period, simplicity and easy maintenance. Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application.

What is an energy storage container?

The energy storage container contains environmental control, power distribution, fire protection, security, lighting, monitoring, etc. It has the characteristics of convenient installation and space saving.

## 1MW Energy Storage Container for Chilean Research Station

### Dawnice Battery , Energy Storage Container 1MW

Yichun Dawnice Manufacture and Trade Co., Ltd. Solar Storage System Series Energy Storage Container 1MW. Detailed profile including pictures and manufacturer PDF
