

**EQACC SOLAR**

# **1MW Industrial and Commercial Energy Storage Power Station**

## Overview

---

What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

Which energy storage systems are best for commercial & commercial facilities?

AlphaESS industrial and commercial energy storage systems can provide the one-stop C&I energy storage solution for commercial and industrial facilities. Our solar PV and battery storage solution help maximize energy independence and reduce grid power demand. Residential & commercial battery energy storage systems available.

What is a commercial and industrial energy storage system?

Product can be used in any parallel connection to meet different power and energy requirements and can be flexibly deployed on-site. A commercial and industrial energy storage system from HyperStrong reduces the cost of electricity consumption and stabilizes your business's power supply.

What is a commercial battery storage system?

Our commercial battery storage systems utilize demand charge management, dynamic capacity expansion, and demand-side response to improve commercial and industrial energy storage and enhance new energy distribution. Project features 5 units of HyperStrong's liquid-cooling outdoor cabinets in a 500kW/1164.8kWh energy storage power station.
