

**EQACC SOLAR**

**1kWh energy storage products**

## Overview

---

What is a 1MWh energy storage system?

The 1MWh Energy Storage System consists of a Battery Pack, a Battery Management System (BMS), and an AC Power Conversion System (PCS). We can tailor-make a peak shaving system in any Kilowatt range above 250 kW per module. For applications over 1MW these units can be paralleled.

Features: Features of the Battery Management System (BMS):

What are the features of 40kWh all in one energy storage system?

The 40kWh all-in-one Energy storage system features a programmable multiple operation modes: On grid, off grid and UPS. It also offers configurable AC/Solar/Generator Charger priority by LCD setting and a limit function to prevent excess power overflow to the grid.

Is hithium a good energy storage company?

HiTHIUM presented three innovative energy storage products and services for the first time at the exhibition. Concurrently, the China Energy Storage Alliance (CNESA) released a new analysis of 2023 Stationary Energy Storage Manufacturer Shipments, where HiTHIUM ranked among the Top 5.
