25kW Baku Solar Containerized Refinery

12.8V 100Ah

Overview

Why should Azerbaijan modernize the Baku oil refinery?

In the near future, the modernization of the Baku Oil Refinery will facilitate a substantial expansion of Azerbaijan's fuel and oil product exports, including to foreign markets that demand high-quality standards.

What are the export plans for Baku oil refinery?

The export plans for the Baku Oil Refinery are quite extensive in terms of geography, with approximately 25% of the gasoline produced and around 40% of the diesel fuel and jet fuel expected to be exported to foreign markets. However, ensuring the supply of the domestic market remains the more immediate priority.

Does Azerbaijan have a new oil refinery?

Guided by the United Nations principles on environmental protection and aiming to reduce the negative impact of vehicle emissions on public health, the country has completed a significant portion of the modernization work at the Heydar Aliyev Baku Oil Refinery, which is owned by the State Oil Company of Azerbaijan (SOCAR).

Does Azerbaijan produce diesel fuel?

In recent years, the large-scale project for the modernization and reconstruction of the Heydar Aliyev Baku Oil Refinery has significantly strengthened the position of domestic fuel production in Azerbaijan. Today, Azerbaijan produces diesel fuel and two types of "Euro-5" gasoline, with plans to expand export supplies in the near future.
