

**EQACC SOLAR**

# **280W monocrystalline silicon solar panel**

## Overview

---

Who makes 280 watt monocrystalline solar panels?

Jinpo Solar manufactures 280 watt Monocrystalline Solar Panels in China. We have our own factory of Monocrystalline PV Modules. Jinpo Solar provide the high quality and competitive price on 280 watt Monocrystalline Solar Panels for you. Contact us now for quotation. What Our Client Say About Jinpo?

What is a 320W monocrystalline solar panel?

The 320W monocrystalline solar panel comes with PERC technology. Monocrystalline solar panels are a type of solar panels, and this specific one has a capacity of 320 watts. The main difference between monocrystalline solar cells and PERC solar cells is the passivation layer added on the backside of the solar cell.

What is a 180W monocrystalline solar panel?

A 180W monocrystalline solar panel is made of high efficiency solar cells. It comes with 5m of special solar cable and MC4 connectors, and is optimized for 12V systems.

What is a 300W monocrystalline solar panel?

A 300W monocrystalline solar panel is a lightweight solar panel that enhances module efficiency while minimizing its weight. It is the perfect option for any off-grid solar system, especially for transportation applications such as RVs and boats. This monocrystalline solar panel features a lightweight substrate and laminate, making it suitable for outdoor applications.
