

30kW Folding Container for Baku Wastewater Treatment Plant

 **TAX FREE**    

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

Does biokube offer a containerized wastewater treatment plant?

In the picture, you can see all the necessary mechanical parts for independent operation. Delivered in 2014. BioKube offers a variety of containerized wastewater treatment plants in standard shipping containers for easy relocation.

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

How long does a containerized wastewater treatment plant take?

We offer a variety of capacities that can meet your requirements. As the pre-assembled containerized wastewater treatment plant is located inside a standard 20 or 40 foot shipping container, it can be relocated and installed with ease at other locations. In most cases it is a one to two-day operation and requires only a flatbed truck and a crane.

Where are Klaro containerized wastewater treatment systems made?

KLARO containerized wastewater treatment systems are all manufactured, pre-assembled and tested at our site in Bayreuth. You can rely on the top quality of all installation parts. Thanks to the high-quality workmanship, the systems can be operated in any climate zone.
