# 365wp solar panel price

✓ IP65/IP55 OUTDOOR CABINET

✓ OUTDOOR MODULE CABINET

✓ OUTDOOR 5G BASE STATION  
CABINET

✓ WATERPROOF

## Overview

---

How much does a 365 watt solar panel cost?

The average price of 365 Watts solar panels on our website is between \$220 and \$540. The size of your 365 Watt solar panel depends on the manufacturer and the design of the module. If the solar panel has 60 solar cells in its construction, its dimensions will be about 65" x 40" x 1.5" and it will weight around 45 lbs.

What is a 365 watt monocrystalline solar panel?

The REC 365 watt monocrystalline solar panel delivers high power output and performance for residential projects. The REC Twinpeak 4 Black module features 120 half-cut monocrystalline silicon cells on a black backsheet with a black anodized aluminum. Shop here to find low priced solar panels that generate 365 watts of DC power.

Are 365w solar panels worth it?

By building your system out of powerful modules, you get more energy from a square foot and use your space more efficiently. The 365w solar panel price is usually slightly higher than the one for more popular modules for home installations, but the power output is worth it.

What are polycrystalline solar panels?

Polycrystalline solar panels are made from multiple silicon crystals and have a distinct blue color. They are less expensive to produce compared to monocrystalline solar panels and have a slightly lower efficiency rate. Polycrystalline panels are a great option for homeowners who want to get the most value for their investment.
