

EQACC SOLAR

5MWh Off-Grid Solar Container for Hospitals

Overview

Where is harvested energy stored?

Harvested energy is stored in Lithium LiFePO4 battery banks with it's own programmed BMS (Battery Management System).

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.

Which solar panels do you use?

We use the highest quality solar panels, including LG, Peimar, and Canadian Solar; these solar panels harvest the sun's power and stores the energy in high-quality lithium batteries, controlled with an external BMS. Then the power is distributed using Victron Multiplus units, so this inverter/charger can transfer the power.

5MWh Off-Grid Solar Container for Hospitals

20FT 5MW Litium Battery Storage Containers off Grid Liquid ...

The solar container includes lighting, access control, fireprotection, and air conditioning. 20h can hold 1000kwh battery, invertercombiner box or PCS, 40hg can hold ...
