

## EQACC SOLAR

# 60ZH inverter

## Overview

---

Do I need a 60Hz inverter?

Here in the US, things run at 60Hz, in Europe and most other places around the world, things run at 50Hz. You'll most likely require a 60Hz inverter if you are running a device intended to run on US power. We like to go camping and travel quite frequently.

What is a CDI EM60 inverter?

The CDI-EM60-series inverter is a mini-type low-power single-phase inverter with optimum SVC and V/F control, stable performance and simplified functions. It reserves the configuration most-frequently used by users, and can be extended with several I/O and communication interfaces. EM60 Model Selection Related Product.

Which inverter is suitable for mobile applications?

Suitable for mobile applications. Professional connections. Automatic, reliable and safe operation. Optional: Masterswitch/Systemswitch for automatic selection of the desired energy source. Temperature range (ambient temp.) 12/2000 (230/60Hz) inverter. Ideal for small and medium-sized applications.

What is the difference between HF and LF power inverter?

HF power inverter have limit for running appliances with motors, engines, special light and TV. LF power inverter available for sensitive load, accept generator's energy output, high power factor, and follow our warning label, it would not have any problems.
