Aarhus Denmark energy storage pcs container

Overview

What is a container ship facility in Aarhus?

The facility, designed specifically for container ships, will mark the first of its kind in Denmark and solidify the Port of Aarhus's commitment to green transformation. Under the agreement, Danish company PowerCon will supply the transformer station and power management system for the project.

Is Aarhus a sustainable port?

The Port of Aarhus, Denmark's largest commercial port, has announced the finalization of an agreement to develop one of the most advanced shore power facilities in Europe. This initiative represents a significant step forward in reducing emissions and enhancing sustainable port operations in Northern Europe.

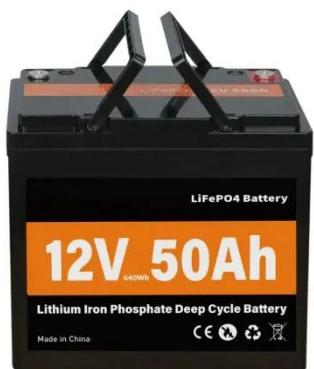

Is Aarhus a green port?

With the completion of the shore power facility in 2026, the Port of Aarhus will continue to set benchmarks in green port operations. This project underscores the port's mission to connect Denmark with the world while embracing sustainable solutions for a changing global economy.

Why is the port of Aarhus launching a shore power facility?

Anne Zachariassen, COO of the Port of Aarhus, emphasized the importance of the project "We are pleased that we can once again collaborate with PowerCon to establish a shore power facility. It will reduce both noise and local particle pollution caused by ships using diesel generators.
