Abu Dhabi Energy Storage Power Generation

Overview

Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world's first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

How much electricity does Abu Dhabi generate?

Abu Dhabi's energy sector has a total available electricity generation capacity of 16,701 MW while the total electricity generated was 84,740 GWh. Peak demand load at Abu Dhabi Distribution Company (ADDC) grew by 8% from 2019 to reach 6,568 MW in 2020, while that of Al Ain Distribution Company (AADC) grew by 2.9% to reach 2,444 MW.

What is the role of the energy sector in Abu Dhabi?

Our role is to facilitate the development of the energy sector in Abu Dhabi in order to support the economic, environmental, and social sustainability requirements of the emirate, both today and into the future, as part of the Abu Dhabi 2030 vision, which aims at establishing a robust and secure society with a sustainable economy.

What is a 19gwh battery storage facility?

The 19GWh battery storage facility will enable seamless integration of solar power into the grid. By integrating state-of-the-art renewable technologies with energy storage solutions, this landmark project exemplifies the UAE's commitment to scaling innovative clean energy solutions to meet evolving energy demands.
