Overview

Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world's first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

Why is UAE launching a solar power and battery storage project?

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week, reaffirming the UAE's position as a global pioneer in renewable energy deployment.

What is EWEC doing in Abu Dhabi?

Located in Abu Dhabi, the project will feature a 5.2 gigawatt DC solar photovoltaic plant, coupled with a 19 gigawatt-hour battery energy storage system, setting a global benchmark in clean energy innovation. "In collaboration with EWEC and our partners, we will develop a renewable energy facility capable of providing clean energy round the clock.

Is the Middle East ready for battery storage?

The Middle East region has been relatively slow in its adoption of battery storage compared to more mature markets like China and the US. However, it is predicted to rapidly catch up based on policy announcements such as Saudi Arabia's Vision 2030 strategy.
