Abu Dhabi solar Power Generation and Energy Storage Benefits

Overview

Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world's first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

How much solar power will Abu Dhabi get?

The new solar power project in Abu Dhabi is expected to cover an area of 20 square kilometers and almost triple its solar power generation capacity to 3.2 GW. This will help the Emirate state achieve its 2030 goal to reduce carbon intensity by 70% compared to 2015.

Is Abu Dhabi a leading region for solar power adoption?

Abu Dhabi is among the leading regions of the world for solar power adoption as shown by the Al Dhafra and Noor projects.

What is the role of the energy sector in Abu Dhabi?

Our role is to facilitate the development of the energy sector in Abu Dhabi in order to support the economic, environmental, and social sustainability requirements of the emirate, both today and into the future, as part of the Abu Dhabi 2030 vision, which aims at establishing a robust and secure society with a sustainable economy.
