Accra Communications Company 5G base station bidding

Overview

Will NGIC be able to deliver 5G services in Ghana?

Full nationwide coverage, including rural areas, is targeted for completion by 2026. By leveraging NGIC's infrastructure, telecommunications providers can swiftly deliver 5G services, fostering growth, innovation, and digital inclusivity across Ghana.

Who builds the shared 4G & 5G infrastructure?

The shared 4G and 5G infrastructure will be built by Nokia and Radisys, with IT architecture and integration provided by Microsoft and Tech Mahindra. This collaboration ensures that we leverage cutting edge world-class expertise and technology to build a robust digital infrastructure.

When is NGIC launching 5G services in India?

Mrs Owusu-Ekuful revealed that the partnership was officially signed in Mumbai, India, on , culminating a process that began over two years ago, and was finally time for the NGIC to roll out its 5G services within the next six months.

Why is NGIC launching 5G?

This 5G launch by NGIC and its partners marks a new chapter for Ghana, underscoring a shared commitment to technological innovation, economic empowerment, and sustainable development for all Ghanaians. About NGIC
