# **Africa s first 5G base station communication**

## Overview

---

When did 5G start in South Africa?

Africa's first 5G network was launched by wholesale operator Liquid Telecom South Africa in March 2020, using its 3.5GHz spectrum holdings. Vodacom South Africa deployed standards-based fixed wireless 5G access in August 2018, but couldn't offer the service on a commercial basis due to its lack of 3.5GHz spectrum.

Which countries have 5G in the Middle East?

After the UAE, the next four MEA countries to get 5G were all in the Middle East, with launches in Bahrain, Kuwait, and Qatar in July 2019, followed by Saudi Arabia in the fourth quarter of that year. Africa's first 5G network was launched by wholesale operator Liquid Telecom South Africa in March 2020, using its 3.5GHz spectrum holdings.

How many countries are launching 5G services in Africa?

As of September 2023, 27 operators in 16 markets in Africa had launched commercial 5G services. More markets are expected to follow soon, with operators in an additional 10 countries making a commitment to launch 5G in the coming years. 10 countries in Africa have assigned spectrum for 5G services to operators, at the time of writing.

Does South Africa have a 5G network?

acitymedia.com)4.5 Roadmap for South AfricaWhile South Africa is well advanced in terms of deploying and commercialising 5G networks, the coverage of these networks remains restricted to major cities. This is likely due to a continuing delay to spe
