

EQACC SOLAR

After-sales service for 350kW photovoltaic container

Overview

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?

.

How do I contact smart photovoltaic customer service?

Talk to our well-chosen sales consultant for your exact solar energy needs. For after-sales product related issues, please fill in this form. You can contact the official smart photovoltaic customer service by email and phone to write down your problems or troubles. We will contact you as soon as possible and assist in solving them.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

How long does it take to install a solar panel container?

Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. Folding solar panel inside the container can be unfolded or stowed in as little as 1h (the time does not vary for different photovoltaic containers).
