

EQACC SOLAR

After-sales service for corrosion-resistant intelligent photovoltaic energy storage containers

Overview

What is a residential energy storage system?

Cloud platform support allows for remote monitoring and control. Engineered for reliable performance at altitudes up to 2000m. Residential energy storage solutions refer to installing solar panels on residential roofs, and storing solar energy obtained during the day through an energy storage system for use at night or when needed.

What is a commercial photovoltaic solution?

Commercial photovoltaic solutions refer to the installation of solar panels on commercial buildings or factories in order to provide cheap electricity for enterprises. A large-scale photovoltaic power station refers to the installation of a large number of solar panels in an area to provide electricity to residents and businesses in the area.

What is agricultural photovoltaic solution?

Agricultural photovoltaic solution refers to the installation of solar panels on farmland to provide electricity for agricultural production. This solution can reduce the energy consumption in the agricultural production process, and reduce the pollution.

What is the warranty on a photovoltaic system?

Product Warranty: During the specified 5-year warranty period, if the product has quality problems, we will replace or repair the product for customers free of charge. **Technical Support:** Provide technical support for the installation, use, and maintenance of photovoltaic system products.
