# Algiers solar Module Project

Solar

## Overview

---

What is Algeria doing with solar energy?

Building on the Solar 2,000 MW and Solar 1,000 MW programs launched by Algeria's state-owned company Sonelgaz, which include a wide range of solar energy initiatives, the government aims to diversify its revenue streams and reduce reliance on natural gas, which is currently primarily used for power generation in the country.

When will a 300 MW solar power plant be built in Algeria?

The state-owned China State Construction Engineering Corporation (CSCEC) began building a 300 MW solar power plant in Algeria's Oued Province in March 2024 as part of the Solar 1,000 MW program. The project is slated for completion by late 2025 or early 2026.

How many solar panels are there in Algeria?

"In total, Algeria has an assembly capacity of 500 MW for solar modules, which is expected to increase to 600 MW to 700 MW by the end of 2025," said Clean Power's Bakli. Alongside Zergoun, the manufacturer Laguna Solaire has 200 MW of annual capacity for solar panel production in Algeria.

Who won a solar PV tender in Algeria?

ALGIERS, Ma- The government of Algeria has unveiled the winners of two solar PV tenders, the first launched in 2021 and the second held last year, totalling 3 GW, PV Magazine reported on Monday. Contracts were awarded by Algerian gas and electricity utility Sonelgaz.
