

EQACC SOLAR

Alofi solar Cell Module Manufacturer

Overview

Who makes photovoltaic modules?

GEP-Solar, a subsidiary of Sun Group Corporation, specializes in the manufacturing of photovoltaic modules with an impressive annual capacity of 4.7GW across multiple production units in China and Vietnam. They offer a range of modules suitable for both rooftop installations and larger ground-mounted projects.

Who are seraphim solar panels?

Seraphim is a leading solar panel manufacturer, specializing in the research, development, and production of solar PV modules, with a significant global production capacity of 5.5GW. Their commitment to continuous innovation ensures high-quality products and keeps clients informed with regular updates on the latest offerings.

Who is Aiko solar?

Company introduction: Aiko Solar is a leading manufacturer of high-efficiency solar cells in China. Aiko Solar has a production capacity of over 15 GW of PERC cells and over 2 GW of bifacial and heterojunction cells. Aiko Solar has established long-term partnerships with many global module manufacturers and project developers. 5.

Where are solar panels made in China?

Jiangsu Province is renowned as one of China's largest solar panel manufacturing hubs. Located on the east coast, it has the advantage of being near ports, which facilitates the ease of exporting solar panels. The province hosts a multitude of solar panel manufacturers in China, including Trina Solar, one of the world's largest.
