

EQACC SOLAR

Amman Energy Storage Container Production Company

Overview

How to store crude oil in Aqaba?

We are current constructing a Depot spreading over 46D, 16 km south of Aqaba City in the storage capacity of 146,000 m² aim to receive crude oil and clean oil products from marine tankers by the existing Oil Jetty Facilities. Then to store and dispatch the users/customers either by the same piping system to the ships, or to the road tankers.

Where can OPPL build a storage terminal in Aqaba?

OPPL managed to secure a long term lease agreement with Aqaba Development Corporation to build and operate a storage terminal located in the south beach of Aqaba Special Economic Zone Authority in the New Port Area.

How many GWh will a storage system produce in 2022?

The successful global experience of implementing storage systems is about 0.5 GWh for 2020-2021 and will be increased to 1.5 GWh in 2022. A number of pilot projects for the introduction of storage devices in the United Arab Emirates is being jointly prepared.
