Argentina solar Energy Storage

Overview

What's going on with solar in Argentina?

CREDIT: Cauchari Solar BUENOS AIRES, Dec 10 2020 (IPS) - The unprecedented growth of renewable energies in Argentina over the last three years has borne its greatest fruit: the Cauchari solar park, with nearly one million photovoltaic panels and 300 MW of installed power, which was connected to the national power grid on Sept. 26.

How much will Buenos Aires invest in storage capacity?

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 and 18 months. From pv magazine Latam.

How many projects did the Argentinian government submit?

15 companies submitted 27 projects, pledging over \$1 billion in investment for a total that far exceeded the tender's 500 MW target. The Argentinian government opened the bids this week for its AlmaGBA tender process.
