

EQACC SOLAR

Astana Household Energy Storage Company

Overview

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

What are the different types of energy storage systems?

The main products include household off-grid/grid-connected/hybrid energy storage systems (2.5kwh-60kwh), small industrial and commercial photovoltaic energy storage systems (30kwh-500kwh), containerized energy storage (1-5MWh), etc.

What makes a good energy storage company?

1. 20 years professional energy storage design and integration capabilities. 2. R&D, design and debugging professional technical team 3. Group corporate structure, Stable revenue capacity of 100 million, sufficient investment in R&D and technology funds 4. Complete QC, QMSystem, fast delivery capability.

Why should you choose daantu energy storage?

There are many stringent requirements on the security and reliability of BMS, and daantu energy storage has made full preparations. From core chip selection to system-level architecture, we guarantee the safety and reliability of battery products in an all-round and real-time manner.

Astana Household Energy Storage Company

BESS (Battery Energy Storage Systems)

Boost energy storage with Industrial/Commercial & Home BESS, powered by lithium batteries. Ensure grid stability, savings, & backups. Plus, power base stations with Huijue Energy
