

EQACC SOLAR

Astana lead-acid battery cabinet manufacturer

Overview

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

What are the features of a GM-acid valve regulated lead acid battery?

- AGM-Acid Valve-Regulated Lead Acid battery
- Front terminal design suited for 19"21" cabinet
- Strong handles for easy operation
- Patent Terminal sealing & front access
- Self-regulating pressure relief valve with flame arrester
- Terminal cover for insulation with flexible access
- Flame retardant ABS case (UL94 V-0, optional).

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

Why do we need an automatic assembly line for lead-acid battery production?

The automatic assembly line for lead-acid battery production is essential for a consistently reliable battery quality. I hereby agree to the storage and processing of my personal data for the purpose of my enquiry.
