Could a manufacturing breakthrough slash the production time of solar glass?

[Image: ClearVue's solar glass in operation at a shopping centre in Western Australia] Australian solar glass maker ClearVue Technologies says a manufacturing breakthrough could slash the production time of its new solar glass by more than 90%.

Can solar glass help feed the world sustainably?

With proven results from our solar greenhouse and now backing from Australia's top research institutions, ClearVue's solar glass technology is poised to play a major role in feeding the world sustainably. Every step in achieving these ambitious goals will get us closer to revolutionizing the way in how we produce food and energy.

Could a new generation of solar glass be 92 per cent faster?

ASX-listed ClearVue Technologies has announced a manufacturing breakthrough that could produce its new generation of solar glass 92 per cent faster than previous methods and deliver "substantial" cost savings.

Could a new generation solar glass be 92% cheaper?

ASX-listed ClearVue Technologies says a manufacturing breakthrough could produce its new generation solar glass 92% faster and much cheaper.
