

**EQACC SOLAR**

**Australian container energy  
storage construction company**

## Overview

---

Why should you choose a container energy storage system?

Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable integration, backup power, and off-grid energy supply. Why Choose a Container Energy Storage System?

All-in-One Power Solution – Integrated battery storage, inverter systems, and control units in one secure container.

What is 640mwh energy storage project?

640MWh energy storage project, one of the large-scale energy storage projects in Queensland. First project to be constructed using 5MWh energy storage containers in Australia with 25 years warranty. Partners with INTEC Energy Solutions to deliver full EPC solutions and 25 years of operation and maintenance services.

Where is the Canadian energy storage company based?

The Canadian company is opening its Asia-Pacific and Australian head office in Melbourne. It will also open an office in Adelaide later this year to support its energy storage project.

What is Australia's largest compressed air project?

The project, the first of its kind in Australia, will repurpose a disused mine in Broken Hill, New South Wales to store compressed air. Once built, the A\$652 million project will be one of the world's largest compressed air projects. It will produce 200 MW of power and store up to 8 hours of energy.
