

EQACC SOLAR

Australian emergency energy storage vehicle equipment manufacturer

Overview

Will Australia's first energy storage system be operational by 2026?

EnergyAustralia is actively pursuing the development of Australia's first four-hour utility-scale battery, the Wooreen Energy Storage System, with a capacity of 350 MW, set to be operational by 2026 in Victoria's Latrobe Valley. This project highlights the company's commitment to advancing energy storage solutions.

Who is stor-energy?

Stor-Energy is a leading and specialist developer, owner and operator of large-scale battery storage systems across Australia's national electricity market. The company, CitiPower and Powercor, empowers communities by providing them with choices on how to generate, store, use, and sell energy, supporting the transition to a clean energy future.

Are EVs the future of Australia?

Over a fifth of Australia's total carbon emissions are caused by transport. EVs as % of all new vehicles purchased in Australia has increased from 9.5% in 2024. Australia's EV market is set to quadruple by 2030. eLumina is a proud local provider of reliable and efficient EV charging solutions to power Australia's clean energy future.

Who is Energex?

The company, Energex, is an electricity distributor in Queensland, which may indicate their involvement in energy management and distribution related to energy storage solutions.
