

EQACC SOLAR

Austrian Mobile Energy Storage Container Off-Grid Type

**51.2V
200Ah/300Ah
LiFePO4 battery**

Overview

What is a mobile solar container?

The Austrian energy company SolarCont has developed a mobile solar container that stores foldable photovoltaic panels for portable green energy anywhere.

What is a solarcontainer?

The Solarcontainer is a mobile system that can be used for both on- and off-grid purposes, including rescue missions and gatherings. the foldable photovoltaic panels are tucked inside a mobile solar container The mobile solar container can take up to five hours to assemble and make it operational.

How a mobile solar container can be transported?

This setup enables easy transport of the mobile solar container via cargo ship vessels, trains, and trucks too, given that the rail system can be stashed until it fits the container's frame. the unfolded panels can reach up to 120 meters in length, and around 240 solar panels can be installed.

What is a modular container platform?

The modular platform combines multiple containers with battery and energy storage systems, ensuring easy transportation with standardized ISO 668 container dimensions and a permanent "CSC badge" for security. The container measures 6 meters x 2.4 meters x 2.9 meters and weighs 20 tons.
