

EQACC SOLAR

Automatic Solar-Powered Folding Container for Campsites

Overview

What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.

What is a mobile solar container?

The Austrian energy company SolarCont has developed a mobile solar container that stores foldable photovoltaic panels for portable green energy anywhere.

What is a solarcontainer?

The Solarcontainer is a mobile system that can be used for both on- and off-grid purposes, including rescue missions and gatherings. the foldable photovoltaic panels are tucked inside a mobile solar container. The mobile solar container can take up to five hours to assemble and make it operational.

How a mobile solar container can be transported?

This setup enables easy transport of the mobile solar container via cargo ship vessels, trains, and trucks too, given that the rail system can be stashed until it fits the container's frame. the unfolded panels can reach up to 120 meters in length, and around 240 solar panels can be installed

Automatic Solar-Powered Folding Container for Campsites

ALUMERO systems -- solarfold

Powerful and clean power supply Mobile and flexible deployment Automatic import and export of PV modules with electric drive No compaction of the terrain and no cable ...
