# **Azerbaijan solar Power Station Inverter**

## Overview

---

As the first utility-scale renewable energy project in Azerbaijan, the Area 60 solar power project only uses Sungrow's state-of-the-art 320kW string inverters SG320HX and is compatible with the MV8850-LV MV Stations to ensure the project is safe, highly efficient, easy to operate, and grid-friendly. Which solar energy company is launching a solar project in Azerbaijan?

Image: Sungrow UAE-owned renewable energy company Masdar's 308MWp Garadagh (Area 60) Solar PV project has commenced operation in Azerbaijan. The project will produce 500GWh of power annually once operational, using inverter manufacturer Sungrow's 320kW string inverters SG320HX. The project is compatible with the MV8850-LV MV stations.

What is Azerbaijan's first large-scale PV power plant?

For Azerbaijan's first large-scale PV power plant in Gobustan, the SG320HX string inverters and MV Stations (MVS) from Chinese firm Sungrow were deployed. The China State Construction Engineering Corporation (CSCEC) also facilitated grid-connected electricity generation for this photovoltaic power station.

Which inverter is compatible with mv8850-lv MV stations?

The project will produce 500GWh of power annually once operational, using inverter manufacturer Sungrow's 320kW string inverters SG320HX. The project is compatible with the MV8850-LV MV stations. UAE-owned renewable energy company Masdar's 308MWp Garadagh (Area 60) Solar PV project has commenced operation in Azerbaijan.

Does Azerbaijan have a space program?

In addition to green technologies, Azerbaijan is actively pursuing collaboration with China on space programs. Recently, Azerbaijan joined China's International Lunar Research Station (ILRS) project, which aims to establish a permanent lunar base in the 2030s.

Wholesale Solar Inverters For Sale Why Inverter For PV Systems? Types of Solar Inverters String Inverters Power Optimizers Microinverters Why Buy Wholesale Solar Inverters from Us? There are mainly three types of solar inverters -- string inverters, micro-inverters, and power optimizers. All these inverters have a different system. However, they have the same function, which is collecting DC power from batteries and convert into AC, though with different levels of efficiency. As a solar installer, you can guide your customers, See more on solarfeeds 6Wresearch
