BESS container generator in Rotterdam the Netherlands

Overview

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). This groundbreaking 45MW/ 90MWh utility-scale BESS will be located in the port area of Dordrecht, on a 6000m² site and will be used for grid stabilization by storing excess energy from renewable sources.

Will the Netherlands roll out 9GW of battery energy storage?

"By 2030, the Netherlands must roll out at least 9GW of battery energy storage to secure Europe's balanced energy grid." The sophisticated BESS consists of 144 cutting-edge lithium-ion sealed cells -known as Fluence cubes - boasting a formidable capacity of 90MWh.

What is Bess in the Netherlands?

BESS in the Netherlands is a new and small but increasingly necessary industry. A striking growth in battery capacity began in 2021 when the total installed capacity rose by 65% compared to the previous year. This number doubled in 2022 and then tripled in 2023, reaching 621 MWh.

Who is Bess dispatch?
