# **Balkans container solar container energy storage system**

## Overview

---

Which country has the strongest battery energy storage system in the Balkans?

The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The Ministry of Energy even said the new facility, with a capability of 124.1 MW and 496.4 MWh in capacity, is the biggest in the European Union.

Who owns Balkan industrial zone?

The energy systems are part of Bulgaria's first and only closed licensed distribution network. Balkan Industrial Zone, with the solar power plant and BESS facility, is controlled by brothers Kiril and Georgi Domuschiev. The two entrepreneurs intend to charge the batteries when the price of electricity is low and use them in peak periods.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.
