# **Bangladesh Folding Container Two-Way Charging**

## Overview

---

Do charging stations comply with Bangladesh electricity distribution code?

Connection Compliance 8.1. Charging stations shall comply with Bangladesh Electricity Distribution Code (subject to receipt) and other conditions as directed by the government. 8.2.

Why is charging infrastructure important in Bangladesh?

Like other countries of the world, it is critically important for the transportation sector of Bangladesh to have a safe, reliable, accessible, and affordable charging infrastructure to facilitate the extensive use of electric vehicles and reduce fossil fuel dependency.

Where should fast charging infrastructure be installed?

Charging infrastructure shall be installed in all divisional city centers and important highways where the potential for quick introductions of electric vehicles exists. Initially, priority shall be given to installing fast charging infrastructure in CNG/Petrol refueling stations with sufficient space and electricity connection facilities.

How many payment modes are available at charging stations?

6.12.4 There shall be at least two bill payment modes available at the charging stations. Apart from charging agreements, at least one of the payment modes (for example, Cash, Credit/Debit card, etc.) shall remain active. 6.13. Service Charges at Public Charging Stations 6.13.1.
