# **Bangladesh Power Storage Policy**

## Overview

---

Can energy storage be used in Bangladesh?

Concluded in May 2023, the assignment assessed available energy storage technologies, evaluated the role of energy storage in the current grid conditions, identified potential storage locations, analysed energy storage requirements under variable renewable energy (VRE) integration, and developed a roadmap for energy storage in Bangladesh.

What's in the Bangladesh Power Sector Roadmap?

The roadmap highlights specific use-cases for consideration in the Bangladesh power sector over three different future time horizons. It also includes a summary of indicative policy and regulation actions and interventions that may be considered to enable the deployment of energy storage within the defined time horizons.

What can be done about grid connected energy storage in Bangla-Desh?

Limited experience and knowledge of grid connected energy storage in Bangladesh. Early-stage pilot programmes such as the planned 2MW grid connected BESS funded by the Asian Development Bank (ADB) would further support capacity building and knowledge transfer. 3.3.

What are the RPO requirements in Bangladesh?

e Obligation (RPO) requirements.8.1.9 The Government of Bangladesh will promote the manufacture of solar energy equipment including solar cells, solar panels, inverters, mounting structures, cables, storage batterie or energy storage systems, etc. The Government may also provide

## Bangladesh Power Storage Policy

---

### Policy and Regulatory Environment for Utility-Scale Energy Storage

These evaluations apply the previously developed Energy Storage Readiness Assessment to evaluate the policy and regulatory environment for energy storage in Bangladesh.

---

### Dhaka holdings grid-scale energy storage

The roadmap highlights specific use-cases for consideration in the Bangladesh power sector over three different future time horizons. It also includes a summary of indicative policy and ...

### Energy storage among tax-exempt proposals in Bangladesh

Bangladesh's government has proposed exempting renewable energy equipment, including energy storage systems, from import duties and value-added tax (VAT) under its ...
