# **Battery cabinet flame retardant station cabinet application**

## Overview

---

Are there safety cabinets for lithium ion batteries?

There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries. ION-LINE passive storage safety cabinets offer a standard 90-minute fire resistance rating both from the outside to the inside and vice versa.

What types of storage cabinets are available for lithium-ion batteries?

Various cabinet sizes and equipment variants are available for the safe storage of lithium-ion batteries. There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries.

Can a lithium-ion battery cabinet withstand a fire?

You should ensure all storage cabinets for lithium-ion batteries are rated for fires starting from inside the cabinet. Without this, the protection is inadequate. The cabinet must withstand an internal fire for at least 90 minutes; it must be tested and approved to SS-EN-1363-1 for internal fire. 2. Ensure that your cabinet has integral ventilation.

How does a sysbel fire resistant battery charging cabinet work?

SYSBEL Fire Resistant Battery Charging Cabinet Features: Fire Isolation: The cabinet can quickly isolate the source of fire when a battery burns, preventing the spread of fire. Automatic Fire Extinguishing: An automatic fire extinguishing system activates in the event of a fire, controlling the fire to a minimum.
