

# Battery cabinet identification specifications

## Overview

---

Everyone wants a safe, durable, high quality and secure battery enclosure. However, finding the right information about these battery boxes or cabinet is always a challenge. A reason this guide compile.

What is a model BC battery cabinet?

The Model BC Battery Cabinet is UL Listed and finished in textured red or beige to match the various Gamewell-FCI control panels. The cabinet will house up to four (4) model B-31 or two (2) model B-55 batteries. The heavy duty cabinet, constructed of 16 gauge steel, is phosphate treated and primed with zinc chromate prior to painting.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What rating should a battery cabinet have?

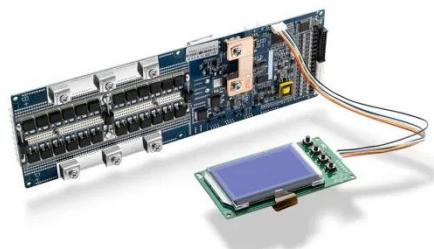

Indoor battery cabinet should have at least NEMA 1 rating. On the other hand, outdoor enclosures for batteries should have a NEMA 3R rating. It is important to note that the NEMA and IP rating varies depending on where you will install the enclosure. Indoor Battery Box Enclosure 2. Mounting Mechanism for Battery Cabinet.

What should a battery cabinet have?

Insulation system – insulation is also a safety measure a battery cabinet should have. Grille – it allows for free air flow thereby ensuring efficient cooling. Dual-stage venting system – It is a common technology in electric vehicle battery systems. The first stage will prevent water ingress and equalize pressure.
