# **Battery cabinet reliability 2 2KWH**

## Overview

---

What is a galaxy lithium-ion battery cabinet?

Meet Schneider Electric's Galaxy Lithium-ion Battery Cabinet. The Schneider Electric-exclusive Galaxy Lithium-ion Battery Cabinets for 3-phase UPSs are a sustainable, innovative energy storage solution for data centers, industrial processes, and critical infrastructure.

Are lithium-ion battery cabinets UL9540A-compliant?

Lithium-ion Battery Cabinets for 3-phase UPSs are sustainable, innovative energy storage solutions for data centers, industrial processes, and critical infrastructures. This UL9540A-compliant battery solution reduces battery footprint and weight by up to 70%, allowing more effective use of space.

What is a lithium-ion battery charging cabinet?

The lithium-ion battery charging cabinet is built using all-welded, 18-gauge (1mm) steel and includes a double wall with 1.5" (38mm) of insulating air space to absorb the energy of high temperature battery failures for improved fire safety.

How many batteries can be stored in a GFCI cabinet?

A dedicated 10VAC/60Hz GFCI supply using a minimum 14 gauge cord is required (not included). The total number of batteries that can be safely stored and charged in the cabinet will vary based on the amount of energy in each battery. The cabinet's Total Energy Containment Rating (TECR) is 2kWh.  $2,000 / (V \times Ah) = \text{number of batteries}$ .
