

EQACC SOLAR

Belmopan solar Power Generation 300kw Off-solar container grid inverter

Overview

What is included in a complete 300KVA solar power plant?

A complete 300kva 300kW solar power plant includes the following configurations: Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey solar energy storage system solution. After we complete production, the system delivered to you can be used immediately after connections are made.

What is an off grid solar power system?

Off grid solar power system doesn't connect to the power grid. In general, it includes solar panels, charger controller, batteries and inverter. This system will store the solar power into the batteries, batteries energy will be converted the electricity power to supply the appliances working through the inverter.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

What kind of battery does a 300kW solar plant use?

The gel battery of this 300kw solar plant is designed with 180pcs 2v2000ah batteries with a total capacity of 720kWh. In addition, PVMARS also offers lithium battery options. If your installation location is limited and you want more power, our small-volume 720kWh lithium battery is also an excellent choice.
