# **Berlin Energy Storage Vehicle Factory Price**

## Overview

---

Will Tesla build a solar energy farm at Giga Berlin?

According to the application documents, Tesla is working on building a 50 MW solar energy farm at Giga Berlin which will be supported by a 30 MWh energy storage system powered by Tesla's own Megapack batteries. Interestingly, Tesla also aims to double its cell production at Giga Berlin.

What is Tesla's Gigafactory Berlin-Brandenburg expansion plan?

The expansion plan includes new infrastructure for storage facilities, a battery cell test lab, and logistics areas. The construction will take place on land Tesla (TSLA) already owns. Tesla's (TSLA) Gigafactory Berlin-Brandenburg, also known as Giga Berlin, is the company's first manufacturing facility in Europe.

Is Tesla doubling its production capacity at Giga Berlin?

Now the US-based electric automaker is working to double its vehicle production capacity at Giga Berlin from 500K to 1 million units annually. Currently, Tesla is only manufacturing its Model Y mid-size electric SUV at Giga Berlin.

Will Tesla expand to Giga Berlin?

Tesla receives approval for expansion at Giga Berlin in Germany, aiming to double production capacity to 1 million vehicles per year.
