

**EQACC SOLAR**

# **Berlin Smart Photovoltaic Energy Storage Container Earthquake-Resistant Type**

## Overview

---

How many solar energy storage systems have been evaluated by HTW Berlin?

22 home storage systems have been evaluated by the HTW Berlin, including new products from Fox ESS, Fronius, Kostal and SAX Power. Ma22 solar energy storage systems from a total of 17 manufacturers have been evaluated by the HTW Berlin University of Applied Sciences in this year's Energy Storage Inspection.

Which solar energy storage systems are the most efficient?

The most efficient solar energy storage systems in the 5 kW and 10 kW classes, which won the 2025 Energy Storage Inspection. In addition to the European suppliers, only the Chinese manufacturers GoodWe and Fox ESS are represented among the best-placed devices this year.

How many solar energy storage systems are there?

Ma22 solar energy storage systems from a total of 17 manufacturers have been evaluated by the HTW Berlin University of Applied Sciences in this year's Energy Storage Inspection. Eight of the systems were new to the test, including those from Fox ESS, Fronius, Kostal and SAX Power.

What is energy storage container?

Energy Storage Container is an energy storage battery system, which includes a monitoring system, battery management unit, particular fire protection system, special air conditioner, energy storage converter, and isolation transformer developed for the needs of the mobile energy storage market.
