

EQACC SOLAR

Berlin solar Panel Fixing Parts Manufacturer

Overview

How to fix solar panels at an angle?

At INDEX you can find a wide range of fixings and accessories designed specifically for this purpose: Adjustable triangles. They are ideal for fixing solar panels at an angle and are mainly made of steel and aluminium. They are used as a complement to the support and help to regulate the inclination of the panels on the roof.

Why do solar panels need fixings?

The fixings for solar panels have a very clear purpose: to support the photovoltaic panels by means of a firm and resistant anchorage capable of withstanding any environmental circumstance.

What accessories are available for solar panels?

At INDEX you will find a wide range of adjustable accessories for solar panels. These range from adjustable hooks to double-threaded screw plates. All these products are used for fixing to structures of different materials and are always accompanied by complementary elements. Sealing accessories.
