

EQACC SOLAR

Bhutan Bay Energy Storage Project

Overview

How will Bhutan achieve its energy goals?

Bhutan plans to achieve this target through diversification in its energy portfolio beyond traditional hydropower, which would include solar and geothermal energy. This will extend to diversifying project structuring and financing through such strategic partnerships.

Why does Bhutan need hydropower?

More importantly, Bhutan sees its hydropower as critical in ensuring round-the-clock availability of power with India's huge investments in renewables such as solar and wind and the plans to further accelerate investments in these renewables over the next two decades.

How much hydro capacity does DGPC have in Bhutan?

DGPC has a portfolio of 2453 MW of Hydro capacity in Bhutan, a large percentage of which is being exported to India, especially during the monsoon months. DGPc is envisioned to achieve 5,500 MW Hydro capacity within the next 5 years timeline including investments & development of Small Hydro and solar Projects.

Why is Tata Power partnering with Bhutan?

Mr. Dasho Chhewang Rinjin, MD, DGPc said, "This strategic partnership with Tata Power is in keeping with Bhutan's aspirations to maximize benefits to the people of Bhutan through fast-tracking the harnessing of its huge renewable energy resources for its economic development and long-term energy security.
