# **Black Mountain Medical Uninterruptible Power Supply Equipment**

## Overview

---

What is a medical-grade uninterruptible power supply (UPS) system?

Our medical-grade uninterruptible power supply (UPS) system secures seamless backup power and protects your equipment from damage. These solutions will instantly switch your system to a backup power supply with no lapses, preventing dire consequences during medical procedures.

What is a medical grade UPS system?

This UPS (uninterruptible power supply) Systems provide full DIN EN 60601-1 compliance while providing reliable battery backup and surge/line noise protection for sensitive medical equipment such as respirators and EKG machines, as well as computers and imaging equipment. Medical-Grade UPS Systems.

What is a Cyberpower medical grade UPS system?

CyberPower Medical Grade UPS systems have been designed to power and protect sensitive equipment in hospitals and healthcare facilities. Each medical UPS is UL 60601-1 tested to provide standby power in patient-care settings and comes with hospital-grade plugs and hospital-grade outlets, and a built-in isolation transformer.

What is an uninterruptible power supply?

Uninterrupted power supplies have two primary roles — to provide backup power as quickly as possible and to protect the equipment from potential quality issues caused by sudden outages. Our uninterruptible power supply equipment efficiently does both to ensure you can carry on with your tasks without delay.
